She focused on Self awareness, interesting point of view, trusting your self ,ability to think differently, Unlocking Creativity is an exploration of the creative process and how organizations can clear the way for innovation. It means you don't create creative ideas; you unearth them from your unconscious. It means that you already have the idea for your next great story, song, scientific breakthrough or invention lurking down deep inside of you, you just have to help it find its way out.The aim of the session was to inculcate the process of Creativity which allows us to view and solve problems more openly and with innovation. Creativity opens the mind. A society that has lost touch with its creative side is an imprisoned society, in that generations of people may be closed minded. It broadens our perspectives and can help us overcome prejudices.
